myQ Connectivity Bundle

Phone access for your garage door opener through a mobile app or your Apple watch. Allows you to open, close, monitor and even schedule your door opener. Installed with Safety Beams on your garage door to prevent the door closing on a vehicle or person if the infra-red beam is broken whilst the door is operating.

Visor Remote

Convenience with a remote control that clips on your car visor to operate your door.

Battery Backup

Powers your garage door opener in the event of a power outage, you can carry on as normal.

LED Light

Super bright LED light for your garage or anywhere around your house. Operates with remote or phone app. You can also sync the door opener to turn the light on when the door is activated. Comes with bonus remote control.

Wireless Keypad

4-digit keypad you can mount outside your garage door or gate for access without a remote. Great for kids, meter readers or relatives.
